北京交通大学

# Operating System

## Experiment Overview

Di Zhang

School of Software Engineering

# Information

- Instructor – Di Zhang
  - dizhang@bjtu.edu.cn
- Teaching Assistant
  - Xiaoyan Wang (Primary)
  - Bingchen He (Primary)

# Course Arrangement

- Class hours: 48h
  - Theory: 32h
  - Experiment: 16h
- Class hour and place
  - Mon 10:30-12:20, YF414
  - Wed 14:10-16:00, YF414 (Odd Weeks)
- Office hour
  - Thu 12:00-14:00, YF West 811

| Week | Monday | Wednesday |
|---|---|---|
| 1 | Theory | ~~Theory~~ |
| 2 | Theory | |
| 3 | Theory | Theory |
| 4 | ~~Theory~~ | |
| 5 | Theory | Theory |
| 6 | Theory | |
| 7 | Theory | Theory |
| 8 | Theory | |
| 9 | Experiment | Theory |
| 10 | Experiment | |
| 11 | Experiment | Theory |
| 12 | Experiment | |
| 13 | Experiment | Theory |
| 14 | Experiment | |
| 15 | Experiment | Theory |
| 16 | Experiment | |

# Experiment Preparation

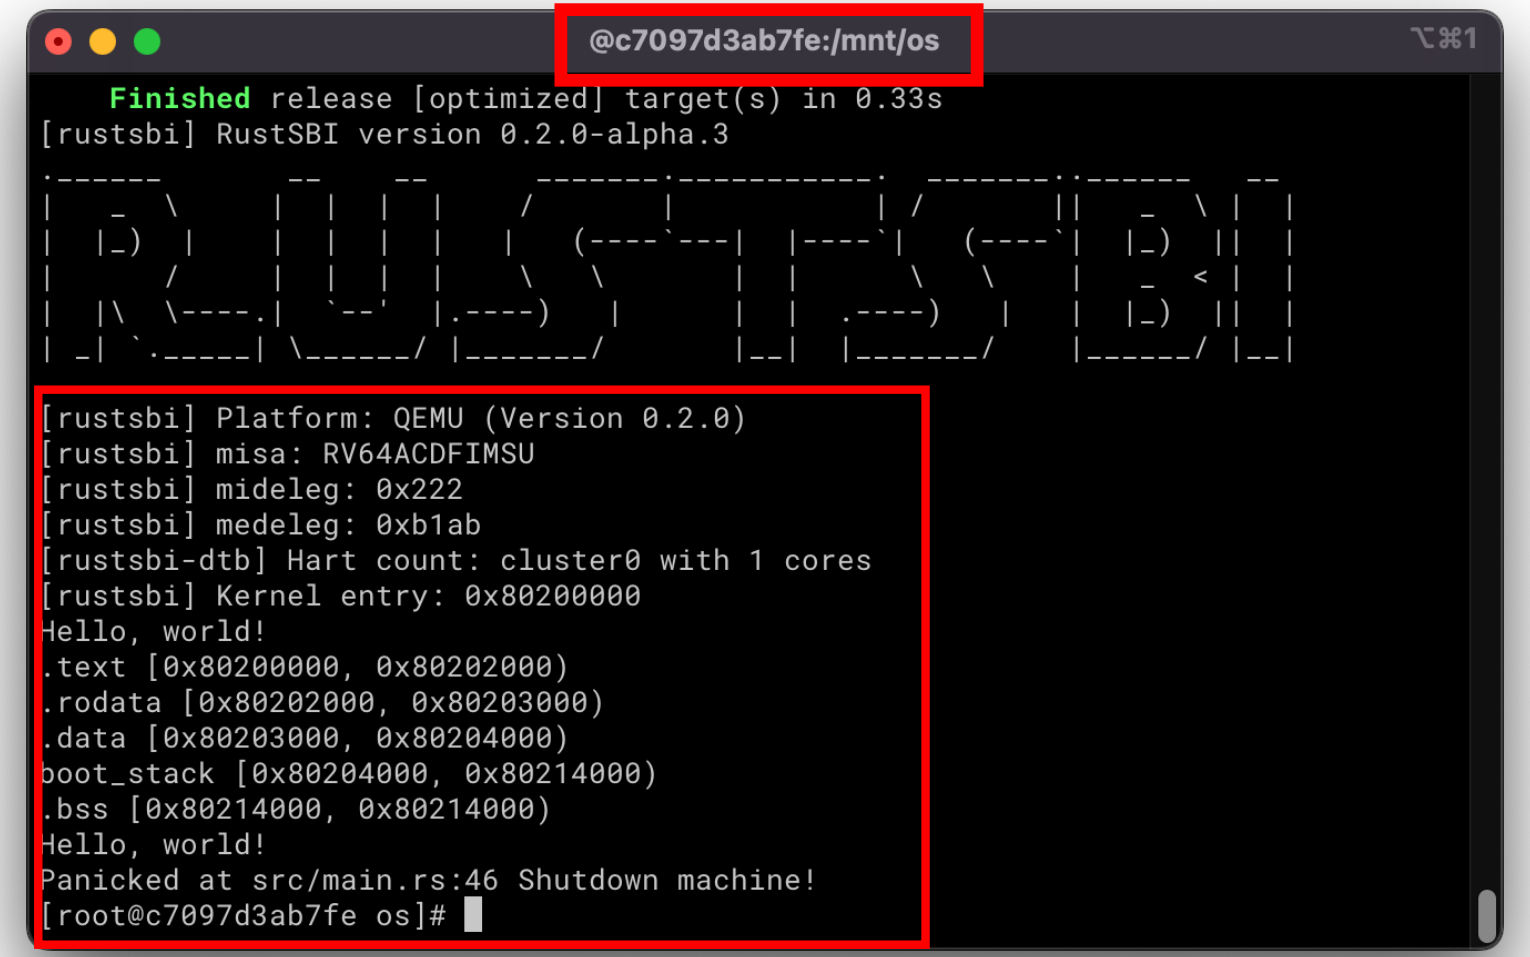

- Docker Desktop
  - Download from https://docker.com
- Git tools
  - Register a github.com or gitee.com account
- Vim editor
  - Basic vim operations are required
- openEuler
  - An openEuler docker container
  - Please create according the experiment manual

# Experiment Requirement

- Complete the experiments in class
  - Take screenshots at each experiment step
    - Please use the window screenshot to ensure a complete capture of the command line window
  - Commit code to git at each experiment step
    - Your student ID and name should be included in the git submission comments
  - Submit your experiment report and code to course platform
    - Please use experiment report template
    - The submitted code should contain git information (that is .git folder should be included in the submitted code)

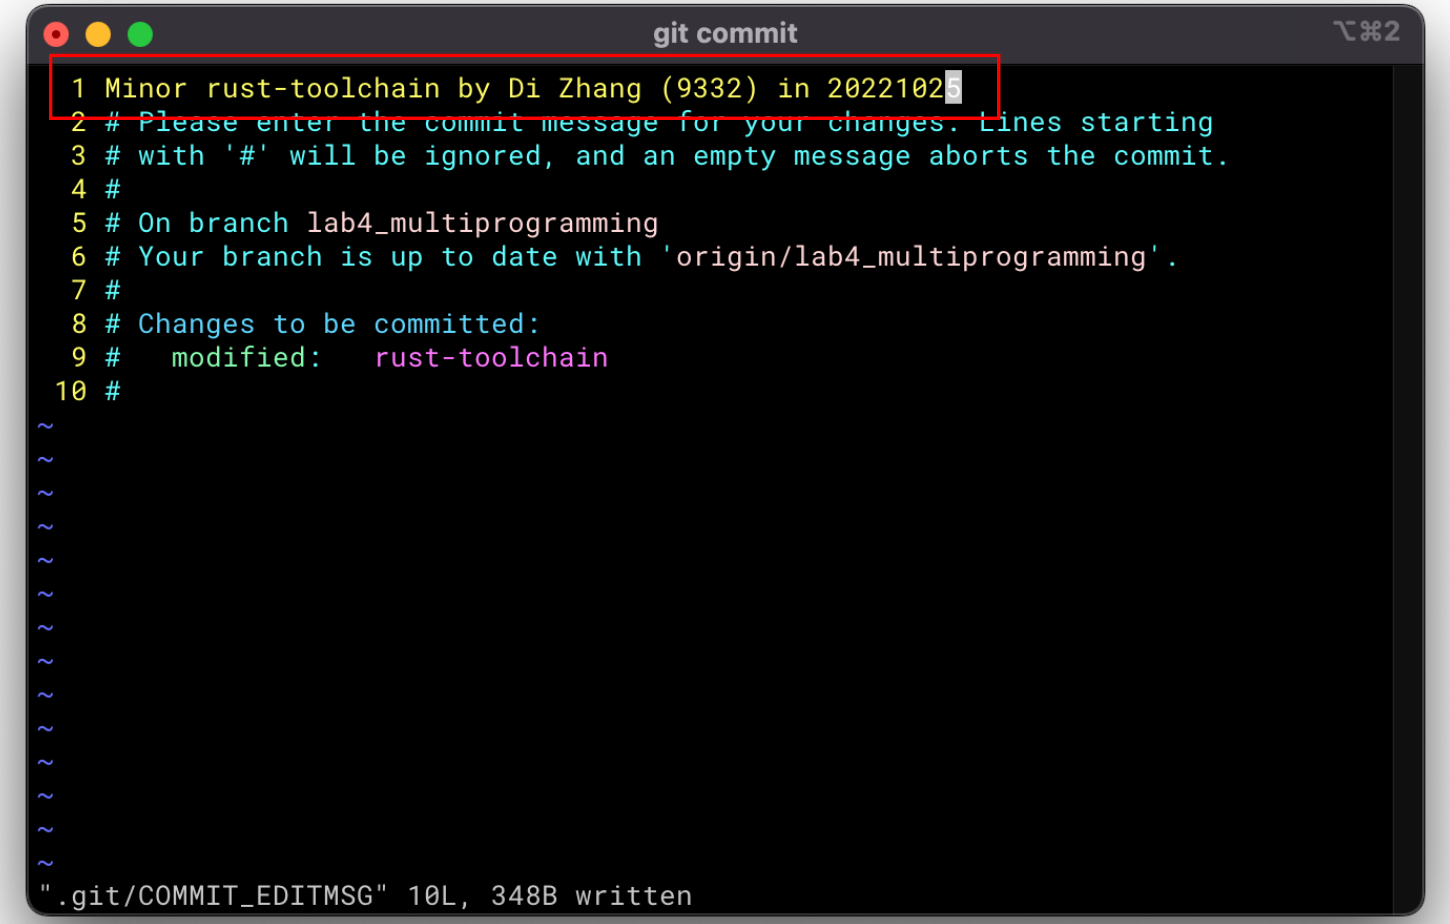

# Experiment Requirement

- Take screenshots at each experiment step

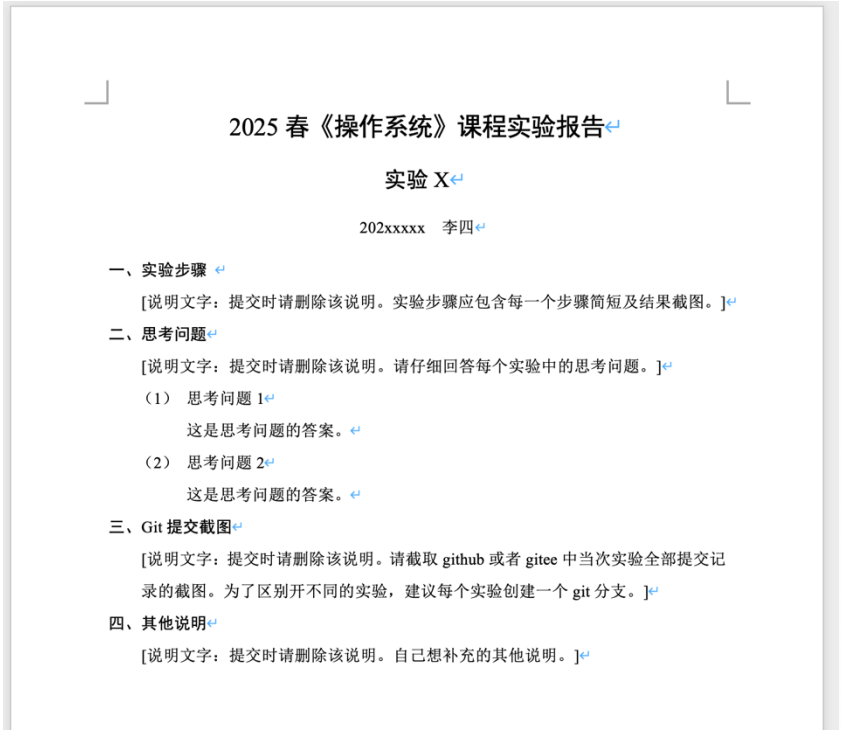

# Experiment Requirement

- Commit code to git at each experiment step

# Experiment Requirement

- Submit your experiment report and code to course platform

2025 春《操作系统》课程实验报告

实验 X

202xxxxx 李四

一、实验步骤

[说明文字：提交时请删除该说明。实验步骤应包含每一个步骤简短及结果截图。]

二、思考问题

[说明文字：提交时请删除该说明。请仔细回答每个实验中的思考问题。]

（1） 思考问题 1

这是思考问题的答案。

（2） 思考问题 2

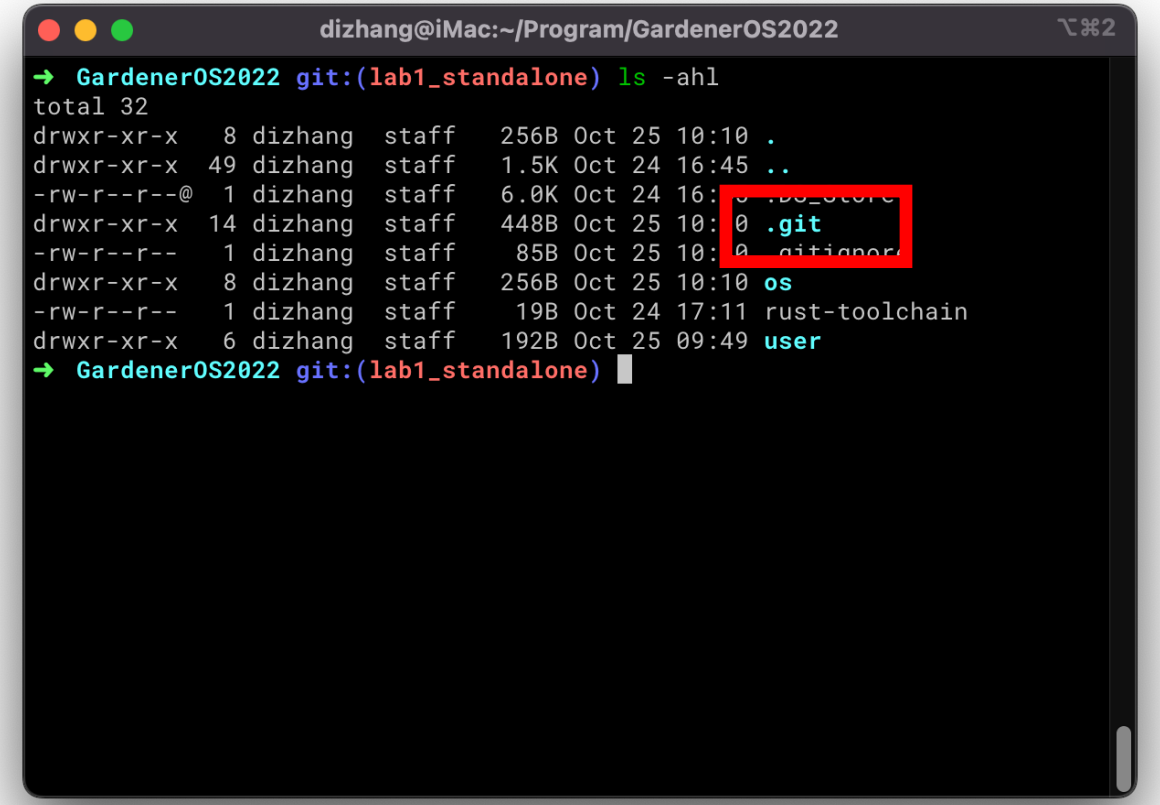

这是思考问题的答案。

三、Git 提交截图

[说明文字：提交时请删除该说明。请截取 github 或者 gitee 中当次实验全部提交记录的截图。为了区别开不同的实验，建议每个实验创建一个 git 分支。]

四、其他说明

[说明文字：提交时请删除该说明。自己想补充的其他说明。]

# Tools

- Docker
- Git
- Vim

# Let's try

- Replace the rust version to the latest?
- Replace the rustsbi to the latest?
- Try the new rCore?
